EDUCATION

MOSCOW INSTITUTE OF PHYSICS AND TECHNOLOGY | BACHELOR IN APPLIED MATH AND PHYSICS

2018 - 2022 | Department of General and Applied Physics

COURSES:

- Mathematics: Calculus, Linear Algebra, Differential Equations, Complex Analysis, Partial Differential Equations
- Physics: Mechanics, Thermodynamics, Electricity & Magnetism, Optics (both Theoretical & Experimental courses), Theoretical Mechanics, Field Theory, Quantum Physics, Quantum Field Theory, Statistical physics, Soft Matter Physics
- Computer Science, Computational Mathematics
- General and Bioorganic Chemistry (both Theoretical & Experimental courses), Cell biology, Genetic engineering

CGPA: 8.8/10.0

ADDITIONAL COURSES:

- Genetic Engineering & Bioinformatics by *Bioinformatics Institute*
- Neural networks and computer vision by *Samsung Research Russia*

EXPERIENCE

LABORATORY OF NANOBIO TECHNOLOGIES | TRAINEE

St. Petersburg Academic University, Sep 2017 – May 2018

- **Scientific practice:** Investigation of the Protein Stability. The project consisted of an experiment on protein fluorescence spectroscopy followed by computational modeling and stability prediction.
- **Supervisor:** I. Eliseev, PhD

LABORATORY FOR STRUCTURAL ANALYSIS AND ENGINEERING OF MEMBRANE SYSTEMS |

TRAINEE

Moscow Institute of Physics and Technology, Oct 2020 – now

- **Scientific practice:** Computational investigation of the fluorescent LOV domain followed by genetic engineering.
- **Supervisor:** Dr. Ivan Gushchin

PHYTECH.CENTER IOS DEVELOPER, PRODUCT MANAGER

Moscow, Apr 2021 – now

- Developer of MIPT university [iOS application](#). The application includes following functionality: schedule, news, chat-bot, navigator, payment services.
- Head of Android App Development. Engaged in the preparation of technical tasks, prioritization, management.

SOLO PROJECTS

- **Machine learning:** implementing binary food classifier network in the Android application.
- **Mobile development:** University schedule application on both [Android](#) and [IOS](#) platforms. The project was funded by the [MIPT Endowment fund](#).

QUALIFICATIONS & SKILLS

- **IOS Development:** Swift, SwiftUI, UIKit
- **Android Development:** Kotlin, Java
- **Python:** PyTorch, NumPy, Scipy, Pandas, Matplotlib
- **Others:** \LaTeX , MS Office, C++, Wolfram Mathematica

AWARDS

- **The First-Degree Diploma for the Best Oral Presentation on the XXVIII Sakharov's Readings**
2018, St. Petersburg, Russia
- **Winner of the Rosatom Physics Olympiad**
2018, St. Petersburg, Russia
- **Grantholder of the Abramov's Scholarship**
2019 – 2021, Dolgoprudny, Russia
- **Winner of the 64th International MIPT Scientific Conference**
2021, Dolgoprudny, Russia
